**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 08 August 2005.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.

## **DETAILED ACTION**

### ***Drawings***

1. Figure 10 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 2-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding to claim 2-4 and 6, last 2 line should be "said transmission characteristic of said subscriber line".

Regarding to claim 5, third line from the bottom should be “said transmission characteristic of said subscriber line”.

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claim 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Inada et al. (US 6,925,090).

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

Regarding to claim 1, Inada teaches an xDSL modem used for digital communication through a subscriber line connecting a local switch and a customer premises equipment, and which includes a digital transmitting unit 5 for performing the digital communication using a data signal, the data signal being separated by a splitter 4 from an analog control signal and a speech signal used for a telephone communication by use of an analog transmitting unit 6, the xDSL modem comprising; an evaluating unit 8 for evaluating, prior to a start of a provision of a broadband communication service, a transmission characteristic of said subscriber line based on a reception result of a signal transmitted from said local switch through said subscriber line (Column 20 Line 56-64); and a reporting unit 8 for sending out said transmission characteristic obtained by said evaluating unit to a network through said analog transmitting unit 6 (Column 20 Line 59 – Column 21 Line 4 and Column 8 Line 25-31).

Regarding to claim 2, Inada teaches said evaluating unit includes: a requiring unit for sending out a predetermined requiring signal to the network through the analog transmitting unit (Column 20 Line 42-47); and an analyzing unit for analyzing a reception result of an analog signal according to receipt of a response signal sent back from a provider offering a broadband communication service in response to said requiring signal (Column 20 Line 56-64), the analog

signal being generated by said local switch directly connected to said xDSL modem and being transmitted through said subscriber line (Column 20 Line 50-55), and for obtaining an evaluation barometer indicating said transmission characteristic of said subscriber line (Column 8 Line 25-31).

***Allowable Subject Matter***

6. Claim 3, 4 and 6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

7. Claim 5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Response to Arguments***

8. Applicant's arguments with respect to claim 1-6 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clemence Han whose telephone number is (571) 272-3158. The examiner can normally be reached on Monday-Thursday 7 - 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chieh Fan can be reached on (571) 272-3042. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
